Dear Mr. Trevor-Deutsch,

I refer to your application of June 11, 2018 for the transfer of two (2) subdivided commercial mobile spectrum licences from RuralCom Corp (“RuralCom”) to TNW Wireless Inc. (“TNW Wireless”) in the licence areas of covering sections in the Yukon and British Columbia.

We have reviewed your application under the *Framework Relating to Transfers, Divisions and Subordinate Licensing of Spectrum Licences for Commercial Mobile Spectrum* (the Transfers Framework). The department has approved the transfers, as listed in Annex A of the Department’s attached decision.

I encourage you to carefully read the conditions associated with the licence, and be advised that TNW Wireless has an ongoing obligation to comply with all conditions of licence.

Should you have any questions or require any assistance with the above, please contact James Souliere, Manager, Operational Policy, at 613-854-1979 or at james.souliere@canada.ca.

Sincerely,

Susan Hart
Director General
Spectrum Management Operations Branch

Transfer of spectrum licence held by RuralCom Corp. to TNW Wireless Inc.

Transfer decision

Application

1. On June 11, 2018, Innovation, Science and Economic Development Canada (ISED) received an application for the transfer of two spectrum licences in the cellular band from RuralCom Corp. to TNW Wireless Inc., both wholly owned by Investel Capital Corp. The licences are in tiers 2-013-004 and 2-014-001 (Northern BC and Yukon) and are described in Annex A.
2. The application was reviewed under the relevant provisions of Client Procedures Circular CPC-2-1-23, *Licensing Procedure for Spectrum Licences for Terrestrial Services*.
3. Capitalized terms not defined in this decision have the meaning set out in CPC-2-1-23.

Decision

4. The Transfer of the licences held by RuralCom Corp. to TNW Wireless Inc. described above is **approved**.

Rationale

5. The application was assessed against the policy objectives and criteria set out in section 5.6 of CPC-2-1-23.
6. ISED notes that the Licence Transfer will not result in a change in spectrum concentration in the licence area.
7. ISED has determined that the requested Licence Transfer would not impact the ability of existing or future competitors to provide services given that the transfer will not significantly change the post-transfer concentration of commercial mobile spectrum in the affected licence area.
