RE: Part 1 application by TNW Wireless Inc. relating to wholesale roaming agreements required under Telecom Regulatory Policy 2015-177 – Procedural Matter

Dear Mr. Marci,

I am in receipt of your procedural letter of August 30, 2018 regarding the material submitted by TNW Wireless Inc. on August 27, 2018 and specifically the material submitted confidentially. After review of Telecom Information Bulletin 2010-961 and section 39 of the *Telecommunications Act*, we hereby provide a redacted full version of the submissions previously filed with the Commission as Confidential rather than an abridged version as we believe this will be more complete and therefore more useful to readers.

While the vast majority of the information is now provided to the Commission as “public”, redactions where they are present fall into the categories of:

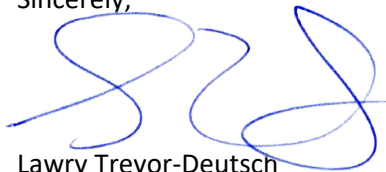

- a) Company contracts which contain financial and technical information as well as contract terms and conditions which could prejudice the Company’s competitive position and furthermore are not relevant to the current proceedings other than to show that they exist (e.g. purchase agreement, licensing agreement),
- b) Marketing plans and strategies that under normal commercial circumstances would remain company internal
- c) Individual third parties to contracts

- d) Third party contact information for certain correspondence provided
- e) Technical and market information as contemplated by Appendix B of CRTC 2010-961, *Telecommunications Proceedings*.

Given the time constraints to respond, we trust that this information and accompanying documentation satisfies the requirements of the Commission's August 30th letter.

Should you require any further information, please let us know.

Sincerely,

Lawry Trevor-Deutsch
President
